

**Public Works Department to Flush Hydrants
within the Town of St. Michaels**

The St. Michaels Public Works Department will flush the water system from Seymour Avenue to Perry Cabin Drive the week of November 18th through the 20th. The Public Works Department initiates the flushing of the Town's water system annually. While flushing is in progress, customers may experience drops in water pressure or notice a rusty water color. Disturbance to the water system will be most prevalent during working hours, Monday through Friday.

The Public Works Department recommends that customers avoid doing laundry during this time period and reduce the use of hot water. If you have any concerns or questions, please call the Town Office at 410-745-9535.

By Authority of The Commissioners of St. Michaels
